Mission Statement

[Cult]] was born in order to be a part of a most structural programme promoted by the European Commission. Our principal aim is the planning of innovative strategies for the Economic, Social, and Professional development. Supported by an international network of partners involved in Advanced, Technological and Global Projects, [Cult]'s members collaborate to obtain an effective improvement in the sphere of Public Utilities and in order to provide excellent services for the citizen.

[Cult] planned and coordinated a number of Institutional, European and International initiatives to:

[Cult] realizes Institutional, European and International initiatives for:

- ◆ Improve efficiency and quality of public utilities services;
- ◆ Supporting and to develop new enterprises;
- ◆ Train and integrate new professionals into the broader corporate culture.

[Cult] developed more than 500 European initiatives such as management magazines, parliamentary partnership, advanced research programmes, and specialised services for information, training and consultancy.

[CULT] is certified ISO 9001 for designing, developing and providing supervisory/managerial training and professional consulting services for enterprises and Government.
